Wissenschaften GmbH

Osteoarthritis (OA) is a leading cause of disability in older adults ¹

The risk of arthritis increases with age ²

As per CDC, in the US, of people aged:

Arthritis is more common in women than men ²

Arthritis increases the risk of falls in adults by **250%**

Adults with arthritis were about **2.5 times more likely to have two or more falls and suffer a fall injury** in the past 12 months compared with adults without arthritis.

COLLAMOUV®

Enjoy the Triple Edge

A unique concentrated hydrolyzed Collagen drink fortified with Rosehip, Vit C & K2 for meeting all OA therapy goals – safely

Nutritional Fact Sheet

One bottle of 15 ml contains	Per 25 ml	Per 100 ml	RDA%*
Energy	220 kJ/52 kcal	880 kJ/208 kcal	2.6 %
Protein	11.0 g	44.0 g	22 %
Hydrolyzed Collagen II	10.0 g	40.0 g	--
Carbohydrate	2.70 g	10.80 g	1 %
Salt	0.14 g	0.56 g	2.33 %
Fat	0.13 g	0.50 g	0.19 %
Rosehip concentrated	500 mg	2000 mg	--
Vitamin C	60 mg	240 mg	60 %
Sucralose (Artificial Sweetener)	6 mg	24 mg	--
Selenium	35 microgram	140 microgram	64 %
Vitamin K2	20 microgram	80 microgram	20 %

*Recommended Daily Allowance

The % Daily values are based on a 2000 calories diet

Supports the maintenance of healthy joint function and cartilage integrity with its unique blend of synergistic ingredients ⁶

Rapidly absorbed and accumulated in the cartilage

Induces the production of collagen type II ⁵

6. Efficacy and tolerance of enzymatic hydrolysed collagen (H-C) vs. glucosamine sulphate (GS) in the treatment of knee osteoarthritis (KOA). Tomáš Trč & Jana Bohmová. International Orthopaedics (SICOT) (2011) 35:341–348. DOI 10.1007/s00264-010-1010-z

is proven to support joint function and mobility in cases related to osteoarthritis.

A 13-week, multicentre, double-blind, randomised, parallel, study comparing the efficacy of Collagen and Glucosamine on 100 volunteers aged ≥ 40 years with knee OA ⁵

The rosehip concentrate contained in COLLA**MOUV**[®] has demonstrated a superior analgesic effect compared to glucosamine in all measurements on the VAS** scale⁶.

COLLAMOUV®

is proven to support joint function and mobility in cases related to osteoarthritis.

COLLAMOUV® supports performance & functioning⁷

A 70 Ds, double-blind, randomized, placebo controlled trial to investigate the efficacy of Low molecular weight HC (Hydrolyzed Collagen) on Improving OA Related Symptoms on 80 patients with progressive OA in their hip and/or knee joint.

HC* was significantly more effective than placebo in reducing the WOMAC score, particularly in reducing difficulty in performing various physical activities⁷

HC* revealed significant decrease in total swollen joints and Score index for painful joints compared to GA⁶

Also, CollaMouv showed superior improvement in QoL (Quality of life index) over GA⁶

COLLAMOUV® has a positive effect on OA:

A systematic review on articles published in English and Portuguese in the period of 1994 to 2014⁸

Hydrolyzed Collagen has a positive therapeutic effect on osteoporosis and osteoarthritis offering a:

- Potential increase in bone mineral density
- Protective effect on articular cartilage
- Symptomatic relief of pain

⁷ Effect of the Novel Low Molecular Weight Hydrolyzed Chicken Sternal Cartilage Extract, BioCell Collagen, on Improving Osteoarthritis-Related Symptoms: A Randomized, Double-Blind, Placebo-Controlled Trial. Alexander G. Schauss, et al. Journal of Agriculture and Food Chemistry. 2012 April 25;60 (16): 4096-101.

⁸ Collagen supplementation as a complementary therapy for the prevention and treatment of osteoporosis and osteoarthritis: a systematic review. <http://dx.doi.org/10.1590/1609-9623.2016.14445>.

COLLAMOUV®

is proven to support joint function and mobility in cases related to osteoarthritis.

COLLAMOUV® contains proven ingredients to support joint function and the musculoskeletal system in cases related to osteoarthritis.

A meta-analysis of randomized placebo-controlled trials (n=519) to evaluate the effect of collagen-based supplements on OA symptoms ⁹

Impact of collagen supplementation on the total WOMAC index - weighted mean difference and %95 confidence intervals

Impact of collagen supplementation on the total VAS score - weighted mean difference and %95 confidence intervals

The active ingredients contained in COLLAMOUV®, such as hydrolyzed collagen, have been proven to support the improvement of osteoarthritis-related conditions – by reducing the total WOMAC score and VAS pain values⁹.

COLLAMOUV®

Enjoy the Triple Edge

Collagen & Rosehip have got placebo like adverse events ^{7,10}

9. Effect of collagen supplementation on osteoarthritis symptoms: a meta-analysis of randomized placebo-controlled trials. Juan Mario García-Coronado, et al. Int. Orthop. 2019 Mar;43(3):531-538

10. Does the hip powder of Rosa canina (rosehip) reduce pain in osteoarthritis patients? A meta-analysis of randomized controlled trials. Christensen R, et al. Osteoarthritis and Cartilage 2008;16:965-72.

No NSAIDs side effects

Rosehip has anti-inflammatory actions without NSAIDs gastrointestinal or cardiovascular side effects & can help to reduce the consumption of 'rescue medication' in OA ^{11,12}

COLLAMOUV®

Enjoy the Triple Edge

A unique formula of Hydrolyzed Collagen type II Fortified with Rosehip, Vit C & K2 for better Results

Rosehip:

Rosehip concentrate in COLLAMOUV® has an anti-inflammatory properties similar to that of indomethacin ¹¹
Rosehip can surely support OA patients ¹⁰

In A meta-analysis of three randomised controlled trials of OA patients included 287 patients with a median treatment period of 3 Ms.

Patients were twice as likely to respond to Rosehip (as indicated by a reduction in WOMAC pain) compared to placebo (p= 0.0009)

Efficacy of Rosehip compared to placebo in OA patients

Vitamin C 60 mg

- Essential for Production of Healthy Cartilage and slows its erosion.
- enhances Collagen Absorption following oral intake.

Selenium 35 mcg

- Anti-oxidant that scavenges the Free Radicals that are involved in provoking Mechanically (friction)-induced Osteoarthritis.

Vitamin K2 20 mcg

- Recent published Evidence in The AJM confirms the salient role of Vit. K2 in redirecting calcium deposits in Joints to bone. Thus, reduced joint inflammation, and better bone & Cartilage Formation ¹³.

¹¹ Rosehip -- an evidence based herbal medicine for inflammation and arthritis. Marc Cohen. Australian Family Physician Vol. 41, No. 7, July 2012.

¹² A powder made from seeds and shells of a rose-hip subspecies (*Rosa canina*) reduces symptoms of knee and hip osteoarthritis: a randomised, double-blind, placebo-controlled clinical trial. K. Winther, K. Apéid, G. Thornsborg. Scand J Rheumatol 2005;94:302-309

¹³ Vitamin K2 administration is associated with decreased disease activity in patients with rheumatoid arthritis. Kosuke Ebina, et al. Mod Rheumatol (2013) 23(10):1001-1007

COLLAMOUV®

Enjoy the Triple Edge

A unique concentrated hydrolyzed Collagen (10 g) drink fortified with Rosehip, Vit C, Vit K2 & Selenium for meeting all OA therapy goals – safely

- Supports joints and bone health
- Has a better analgesic effect compared to GA
- Significantly improves all OA parameters
- Has anti-inflammatory actions without the potential NSAIDs side effects

Direction of use:

- One COLLAMOUV® bottle per day before breakfast.
- Shake well before use.
- COLLAMOUV® is a dietary supplement that should not be used as a substitute for a balanced diet.
- COLLAMOUV® is to be used for adults 18 years and older.

Available in packs of 14 or 30 drinkable shots, each containing 25 ml.
